OIL, GAS & MINING

Mr. H. Shepherd
Dept. of Natural Resources
355 West North Temple
3 Triad Center, suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Shepherd:

Thank you for informing me of the change in filing requirements for small mining operations of less than two acres. I was unaware that changes had been made since our initial filing on 11-25-85.

In order to comply with current filing requirements, I have enclosed:

1. A completed form MR-SMO.
2. A map showing location of current operation with proposed minor changes.
3. A copy of our original DECLARATION OF EXEMPTION filed on 11-25-85.
4. A copy of our letter of approval for our mining operation from the United States Department of the Interior dated September 12, 1985. (Attachment "A")

I hope these documents will satisfy your current requirements.

Very truly yours,

T. J. Clark

NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, as amended, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

* * * * *

I. GENERAL INFORMATION (Rule R613-003-104)

1. Name of Claim/Mine: DADDY Dearest 1-9
2. Name of Operator/Applicant: T. J. Clark & Co.
Company () Corporation () Partnership () Individual ()
X
3. Permanent Address: 939 W. Jewell Ave
City: Salt Lake City State: Utah Zip Code: 84104
Telephone Number: (801) 974-0883
4. Ownership of Land Surface:
Private (Fee) ☐ Public Domain (BLM) ☒ National Forest (USFS) ☐
State of Utah ☐ Other: _____
5. Ownership of Minerals:
Private (Fee) ☐ Public Domain (BLM) ☒ National Forest (USFS) ☐
State of Utah ☐ Other: _____

Utah Mining Claim Number(s) 278749 through 278757

Utah State Lease Number(s) _____

6. Have the above owners been notified in writing? Yes X No ____
If no, why not? _____

7. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes X No ____

II. PROJECT LOCATION & MAP (Rule R613-003-105)

1. Project Location (legal description):

County(ies): Emery

1/4, 1/4, 1/4:	<u>NW</u>	Section: <u>26</u>	Township: <u>T22S</u>	Range: <u>6E</u>
1/4, 1/4, 1/4:	_____	Section: _____	Township: _____	Range: _____
1/4, 1/4, 1/4:	_____	Section: _____	Township: _____	Range: _____

2. A topographic base map showing the location of the proposed small mining operation must be submitted with this notice. A USGS 7.5 minute series map is preferred. The areas to be disturbed should be plotted in sufficient detail so that they can be located on the ground. It is recommended that the operator also plot and label any previous disturbances in the immediate vicinity that he is not responsible for.

III. OPERATION PLAN (Rule R613-003-106)

1. Type of mining: Surface 11 Underground 11

2. Mineral(s) to be mined: Multi-Trace Minerals (See attached analysis)

3. Provide a brief description of the proposed mining operation and onsite processing facilities. We propose widening our current mine access to an area approximately 100X300 feet. This will allow access to trucks which will be used for transporting mined material. We will then continue our underground mining operation as approved by BLM on 9-12-85.(see attachment).
We anticipate the removal of any usable ore contacted during the widening of our work area. The estimated amount of this ore is approximately 100 tons. No on-site processing is anticipated.

New Road(s): Length 300 (ft) Width 100 (ft)

Total project surface acreage to be disturbed 1.15 (acres)

IV. OPERATION AND RECLAMATION PRACTICES (Rule R613-003-107 & 108)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

1. Keep the mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Remove all waste or debris from stream channels.
7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.
9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed.

V. VARIANCE REQUEST (Rule R613-003-109)

Yes 11 No 11

Any planned deviations from Rules R613-003-107, Operation Practices, R613-003-108, Hole Plugging Requirements, or R613-003-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).
